The original article [1] contains typographical errors, i.e., in Abstract, the first paragraph on Page 23034, the third paragraph on Page 23037, and Section 4. Element 4 of Group 3 in the USAF 1951 resolution target has been well resolved in the original article. However, it was erroneously indicated that its corresponding spatial resolution was 44.19 μm , while in reality, it was 88.39 μm . This correction does not influence the method, results, descriptions and conclusions of the original article.

Funding. Hong Kong Research Grants Council (15223522, 15224921); Basic and Applied Basic Research Foundation of Guangdong Province (2022A1515011858, 2023A1515010831); Hong Kong Polytechnic University (1-BD4Q, 1-W19E).

Disclosures. The authors declare no conflicts of interest.

Data availability. Data underlying the results presented in this paper are not publicly available at this time but may be obtained from the authors upon reasonable request.
